**2½ DAY LECTURE and CLASS PARTICIPATION COURSE**

*This course provides hands-on training in the methods and procedures used to review permit applications and to prepare air quality permits. This course is designed for personnel of State and local agencies who have some experience in permit programs. The course is designed primarily for permit writers, but inspectors who must read and interpret permit conditions and make site inspections will benefit as well.*

*Course materials will address state and local permits, as well as Title V federal operating permits. Other topics covered will include Compliance Assurance Monitoring; Monitoring, Reporting, and Record-keeping requirements; and toxic air contaminant issues associated with permitting.*

*The course is taught at an intermediate to advanced level, and is intended to be preceded by CARB 333 – Effective Permitting Writing I*

**DAY 1** - State permits, Technology requirements

**DAY 2** - Title V permits, New Source Performance Standards, National Emission Standards for Hazardous Air Pollutants

**DAY 3** - Class permitting exercise
